This is an office action for serial number 10/739,080, entitled Ceiling Fan Display, filed on December 19, 2003.

Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14 and 19, drawn to a product Display Stand, classified in class 248, subclass 159.
- II. Claims 15-18, and 20, drawn to a Ceiling Fan display module, classified in class 416, subclass 246.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the ceiling fan display module does not require the vertical segments having a frustoconical end with each end being secured to an adjacent vertical segment by a threaded bolt. The subcombination has

separate utility such as a stand for displaying other products such as mirrors, computers or toys.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Joseph Berenato on September 22, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly T. Wood whose telephone number is 703-308-0539. The examiner can normally be reached on Monday-Thursday 7:30am to 5:00pm.
